

BIP - Survey for Teachers

Dear colleague,

as you might know, your institution is part of the DOit project. This project aims to build capacity for universities from various countries to offer **blended intensive programmes (BIP)** opportunities for their students and teachers.

The questionnaire aims to understand how teachers perceive internationalization of studies and how they evaluate their competencies in the field. This will be done through a set of questions posed, for which there are no right or wrong answers – your honest answers matter the most. Based on the findings universities will be able to develop and implement better international teaching strategies.

The questionnaire should take no more than 10 minutes to fill. If you face any difficulties while dealing with the questionnaire please refer to your supervisor. Also, please bear in mind that **the questionnaire is anonymous** - you will not be required to provide your name, or any other unique identifiers.
